

Priyanka More

Senior Software & Platform Engineer | [Linkedin](#) | more.piyapatil@gmail.com | 0615797994 | Bangkok, TH.
Portfolio Website: <https://priyankapatilmore.github.io/portfolio>

Software and Platform Engineer with over 7 years of experience building cloud applications, backend systems, and data pipelines. Experienced in C#, .NET, Java, Python, and SQL, working across Azure, AWS, and GCP. Background includes building real-time event streaming with Kafka at scale, developing ETL/ELT data pipelines using Azure Data Factory, writing SQL for data transformation and modeling, and building APIs with automated testing.

SKILLS

Programming:	C#, .NET, Python, Java, JavaScript, Groovy, Bash.
Database:	MS SQL Server, PostgreSQL, MongoDB (NoSQL), SQL optimization, Snowflake, Redis.
Data Engineering & Streaming:	Azure Data Factory (ADF), Apache Kafka, Apache Spark, Stored Procedures, ETL/ELT.
Cloud & DevOps:	Azure (Azure Functions, Event Hubs, Blob Storage), AWS, GCP, Azure DevOps, Kubernetes, Docker, Terraform, GitHub Actions.
API / Integrations / Testing:	RESTful APIs, GraphQL, Salesforce, XUnit, NUnit, Integration Testing, Datadog, Prometheus, Grafana, SonarQube.

EXPERIENCE

ExxonMobil Sr. Platform Engineer & Full Stack Developer	Dec 2022 – Present Bangkok, Thailand
• Build and maintain microservices and backend services in C# .NET. • Implement event-driven data streaming pipelines using Apache Kafka and message queues to process data in real time. • Manage cloud infrastructure, containerized deployments, and CI/CD release pipelines using Azure, DevOps, Terraform, and Kubernetes. • Write, optimize, and troubleshoot SQL queries to ensure low latency and data integrity. • Build and maintain RESTful APIs, implementing automated unit and integration tests. • Monitor system, error rates, and infrastructure reliability using Datadog. • Integrate APIs and data exchange with enterprise systems including Salesforce.	
Demeter ICT Company Limited. Senior Application Developer	Aug 2019 – Nov 2022 Bangkok, Thailand
• Developed backend services and RESTful APIs using Java, Spring Boot, and Node.js. • Integrated CRM systems (Zendesk) with cloud databases across GCP and AWS. • Built Interactive Voice Response (IVR) systems and Dialogflow chatbots to process customer requests in real time. • Wrote automation scripts for data extraction, operational workflows, and API testing.	

BaanBanchi Co., Ltd.**Sep 2018 – Jul 2019**

Full Stack Engineer

Bangkok, Thailand

- Developed an accounting and payroll application for employee tax calculations and financial records.
- Designed relational database schemas, tables, and stored procedures in MS SQL Server.
- Built user interfaces with React.js, WPF, HTML, and Bootstrap, connecting them to backend .NET services.

FREELANCE

Seanet Singapore**2022**

Software & Data Engineer

Singapore

- Developed APIs and SPA(Single Page Application) and Server-Side Rendering (SSR) applications.
- Built data pipelines using Snowflake to ingest and transform data from multiple sources
- Wrote SQL transformations using CTEs, window functions, and stored procedures for data cleansing and dimensional modeling.
- Refactored legacy code into modern microservices and APIs using .NET Core and React.js.

EDUCATION

Asian Institute of Technology**Jan 2017 - Dec 2018**

Master of Engineering: Major in Computer Science

Pathum Thani, Thailand

- Research Grade: Excellent (A).

Jawaharlal Nehru Technological University Hyderabad**Sep 2013 - Dec 2016**

Bachelor of Technology: Major in Computer Science

Hyderabad, Telangana, India
